BUTTERFLY PROCESS ART

SUPPLIES
- Colorful markers
- Water in a spray bottle or shallow tray
- Paper towel
- Paper clip, clothespin, or string

TRY IT OUT!
1. Color every inch of the paper towel with the markers. Use at least two different colors.
2. Wet the entire paper towel by spraying it with water or dipping the towel into a shallow tray of water.
3. Scrunch the paper towel into a ball, unfold, and lay flat to dry.
4. Create a butterfly by scrunching the middle of the towel together and securing with a paper clip, clothespin, or string.

LET'S TALK ABOUT IT!
- What colors did you choose? Why?
- What do you think will happen when you wet the paper towel?
- What happened to all the colors? What new colors do you see?
