COLOR MIXING

SUPPLIES
- Water
- 2—3 clear cups, jars, or bowls
- Spoon
- Food coloring in several colors

LET'S TALK ABOUT IT!
What do you think will happen when we add the food coloring to the water?
What will happen if we add more food coloring to the glass?
What will happen if we mix colors?

TRY IT OUT!
1. Pour a few inches of water into each cup.
2. Select one color to add to each cup.
3. Add a drop of color at a time and watch what happens.
4. Select another color to add to each cup. Add a few drops at a time, stir, and watch what happens.
5. Experiment with adding different colors and amounts. Watch what happens as the colors swirl and mix.
