DIY LAVA LAMP

SUPPLIES
- Clear container
  - Water bottle or glass cup
- Vegetable oil
- Vinegar
- Baking soda
- Food coloring (optional)

TRY IT OUT!
1. Pour two tablespoons of baking soda into a clear container.
2. Pour about a cup of vegetable oil on top of the baking soda.
3. Mix food coloring into half a cup of vinegar and gently pour into the clear container.
4. Watch the color bubbles rise and fall! Gently stir in baking soda with your finger or spoon to activate the bubbles.

LET'S TALK ABOUT IT!
What do you think will happen? What do you think will happen when you add more vinegar or baking soda?
Try using containers of different shapes and sizes! Talk about how the bubbles travel differently in each container.
