FIVE SENSES GUESSING GAME

SUPPLIES
- Empty containers
  - cardboard box, bottles, plastic containers, or tissue boxes
- Regular items at home
  - ice cubes, lemon juice, tissue paper, or cotton balls

LET'S TALK ABOUT IT!
Before exploring each item, ask what sense will be used (touch, taste, smell, sight, hearing).
Ask your child to describe each item. How does it feel? What does it look like?
Do you think this item will make a noise?

TRY IT OUT!
1. Fill each container with a different item to explore.
2. Have your child explore each container using their senses.
3. Make it a guessing game by having your child close their eyes or hiding the container from view.
4. Guess what is in each container!
