MYSTERY BAGS

SUPPLIES
- Paper bag
- Markers or crayons
- Rice, beans, coins, marbles, and other objects

LET'S TALK ABOUT IT!

How does the sound change when you put different things inside the bag?

Will it sound different if you add more things or take some away?

Is the bag lighter or heavier than before?

TRY IT OUT!

1. Use markers or crayons to decorate your bag.
2. Fill the bag with one type of material (like rice).
3. Shake the bag gently and guess what’s inside.
4. Do this a few times with different types of objects!
