PAPER CARS

SUPPLIES
- 1 large sheet of paper (or multiple sheets of paper to create a longer road)
- Crayons
- Cardboard tubes like toilet paper rolls
- 4 bottle caps
- Wet glue
- Scissors
- Pens/pencils/markers

LET'S TALK ABOUT IT!
Create multiple cars and have a race!
Ask your child to predict how the car will move.
Add words like "start" and "stop" or "go" to encourage letter recognition.

TRY IT OUT!
1. Take the tube and attach bottle caps with a little glue. Repeat with all four bottle caps as the wheels.
2. To make a windshield, use scissors to cut an upside-down U.
3. After the glue has dried, decorate the car with crayons.
4. Draw a road on a large piece of paper or several pieces of paper.
5. Drive your car along the road!
