SINK OR FLOAT

SUPPLIES
- Water-safe container
- Water
- Any waterproof toys or household items
  - sponges, toy blocks or boats, aluminum foil
- Food coloring (optional)

TRY IT OUT!
1. Fill your container with water.
2. Add food coloring if desired!
3. Collect your sink-or-float items. You can make a list and create a scavenger hunt to start!
4. Have your child test each object by putting them in the water one at a time.

LET'S TALK ABOUT IT!
Before placing an item in the water, ask whether you think each item will sink or float, and why.

What did the sinking items have in common? How about the floating items?

Can you think of other items you might want to test?
